**BATMAN'S MOVE!**  
 A lot of money is being made by the mob in Gotham City. It's all thanks to the fact that the mob is in charge of the city's economy. They control the banks, the stores, and the streets. They even control the police. They are the real power in Gotham City. And now they are going to take over the city completely. They are going to make Gotham City their own little kingdom. They are going to make Gotham City their own little empire. They are going to make Gotham City their own little world. They are going to make Gotham City their own little universe. They are going to make Gotham City their own little everything.
